

AusDiagnostics TODAY

NEW products
coming in 2022

High-throughput
solution for targeted
testing

Puryx® Access & MT-Prep™ Access

Convenient, high-throughput nucleic acid extraction for up to 96 samples in 30 minutes.

Features and benefits

- Simple *Peel, Load, Go* workflow
- Pre-loaded reagent plates are ready to use with no reconstitution, buffers, or alcohols required
- Attain DNA or RNA from up to 1,440 primary samples in an 8 hour period
- Intuitive reagent plate loading in less than 2 minutes
- Easy-to-use in-built touchscreen to save space

Point-of-care
SARS-CoV-2 diagnostics

Upcoming events

MedLab 2022

Connect with our team to discuss diagnostics technology at the conference in Dubai.

24 - 27 January 2022
Dubai World Trade Centre, UAE

ECCMID 2022

Join us at the 32nd European Congress of Clinical Microbiology & Infectious Diseases.

23 - 26 April 2022
Lisbon, Portugal, & Online

PEEL

Peel foil off the pre-loaded reagent plates.

LOAD

Load reagent plates in clearly labelled slots on the MT-Prep™ Access.

GO

Initialise and walk away for optimal convenience.

At AusDiagnostics, 2021 was the year of collaboration with new staff, partnerships, and markets.

New Head of Quality, EMEA

Jon Keating joined AusDiagnostics in October as our new Head of Quality for Europe, Middle East, and Africa.

Jon Keating
Head of Quality, EMEA

Jon brings aboard over 20 years of expertise in *in vitro* medical devices.

One of Jon's key objectives is to improve our Quality Management systems in the United Kingdom to ensure our ongoing compliance with ISO 13485 and IVDR.

We are delighted to welcome Jon to AusDiagnostics.

Forging New Partnerships in EMEA

For the first time in two years, sales staff from AusDiagnostics UK were able to visit Medica-Dusseldorf and ARABLAB-Dubai.

The meeting allowed us to continue conversations to add to our network of distributors and partner organisations.

We greatly value the connections we have with our partners, without whom we would be unable to improve the standard of healthcare globally, including our expanded capabilities to provide solutions to new EMEA markets.

Message from the CEO

“ This year we have developed faster and more reliable methods of detecting SARS-CoV-2 than ever before.

These achievements are a testament to the dedication and talents of the AusDiagnostics community.

I am continually amazed by the capabilities of our employees, partners, and customers, and I am grateful to work with alongside them. **”**
