

r-biopharm®

QUALITY POLICY

The Quality Policy of AusDiagnostics Group, (inclusive of AusDiagnostics Pty Ltd, AusDiagnostics NZ Ltd, and R-Biopharm Clinical USA Inc) and R-Biopharm Australia Pty Ltd (together referred to herein as the Company), is dedicated to providing best practice guidelines to achieve compliance to quality standards and ensure continuous improvement in all aspects of its business. The Policy focuses on quality, innovation, productivity, and service with the aim to meet or exceed its customers' requirements and expectations.

AusDiagnostics Group is committed to complying with the requirements of ISO 13485:2016, inclusive of all other applicable regulations and legislation, and has provided a framework to establish and review its quality objectives.

R-Biopharm Australia will operate all systems to meet the requirements of ISO 9001.

Following the integration of R-Biopharm Australia and the AusDiagnostics Group, the Company have shared objectives, and the review periods are maintained under one quality system.

Everyone is responsible for and contributes to quality, for the satisfaction of customers and the safety of users, consumers and patients.

Together, we convince our customer with high-quality products and solutions that meet their requirements and fully comply with regulatory requirements.

Dr. Frank Apostel
