Advisory Notice - Removal of old *Easy-Plex™ 72* (Rotor-Gene) products from catalogue

AusDiagnostics is going to cease production of the following *Easy-Plex™ 72* (Rotor-Gene) IVD products. They may be ordered up until June 30th 2017, but will be removed from our on-line catalogue immediately.

Name of products affected:

- Herpes (4-well) REF 67040 replaced by Herpes, Adenovirus and Enterovirus (8-well) REF 27091
- Faecal Bacteria (6-well) REF 65090 replaced by Faecal Bacteria and Parasites (8-well) REF 25040
- Bordetella (3-well) REF 60690 replaced by Child Cough (8-well) REF 20691
- Gastrointestinal Parasites (5-well) REF 65020 replaced by Parasites (8-well) REF 25021
- Vancomycin Resistance (5-well) REF 61120 replaced by Staph + VRE (8-well) REF 21340
- 5 mL Tubes (1.0 mL buffer), 200 REF 9025

In addition we are going to rename the following products. At the same time an additional digit will be added to the REF to comply with our 5 digit standard. Orders using the old name and REF will be accepted until 30th June 2017. All documentation will be updated to use the new names as revisions are created.

Name of products affected:

- 5 mL Tubes (0.5 mL buffer), 200 REF 9022 changed to Swab elution tube (0.5 mL buffer), 200 REF 90220
- 5 mL Tubes (2.0 mL buffer), 200 REF 9021 changed to Swab elution tube (2.0 mL buffer), 200 REF 90210

Date effective of change: 7th November 2015

Please don't hesitate to contact us on 02 96988030 or at support@ausdiagnostics.com if you have any further queries or require any assistance with the update procedure.
